

Amendments to the Claims:

The listing of claims will replace all prior versions, and listings of claims in the application:

Listing of Claims:

Claim 1 (cancelled)

Claim 2 (currently amended): The apparatus as claimed in claim 4 30 wherein the colored solution is selected from the group consisting of: cream, gel, suspension, semi-solid solution.

Claim 3 (currently amended): The apparatus as claimed in claim 4 30 wherein the apparatus comprises a group of wells arranged in a plurality of rows of cream containing wells.

Claim 4 (currently amended): The apparatus as claimed in claim 4 30 wherein the wells are grouped for sequential use.

Claim 5 (currently amended): The apparatus as claimed in claim 4 30 wherein the color of the solution ~~blister pack comprises indicia on the blister packet to indicate~~ when the dose is to be taken.

Claim 6-7 (cancelled)

Claim 8 (currently amended): The apparatus as claimed in claim 7 30 wherein each aqueous solution color is used to indicate elements selected from the group consisting of: the biologically-active substance to be taken, the biologically-active substance concentration and/or volume, the stage of progress through a specified

treatment, time of day, day, week, month, quarter, and combinations thereof.

Claim 9 (as filed)

Claim 10 (currently amended): The apparatus as claimed in claim 4 30 wherein the dose to be taken is varied depending on the biologically-active substance to be taken, time of day, day, week, month, quarter.

Claim 11-15 (cancelled)

Claim 16 (currently amended): The apparatus as claimed in claim 4 30 wherein each well has a seal that is independently accessible, removable or breakable.

Claim 17 (currently amended): The apparatus as claimed in claim 4 30 wherein groups of wells include surrounding perforations.

Claim 18 (currently amended): The apparatus as claimed in claim 4 30 wherein the blister pack also includes non-aqueous solution medicaments.

Claims 19-21 (cancelled)

Claim 22 (currently amended): The apparatus as claimed in claim 4 30 wherein the animal is a human.

Claim 23 (currently amended): The apparatus as claimed in claim 4 30 wherein the medicament within the wells contains an uneven dose of one of four or more different varieties of concentration, type or volume of biologically-active compound.

Claim 24 (currently amended): The apparatus as claimed in claim 4 30 wherein the dose taken is one well per day.

Claim 25 (currently amended): The apparatus as claimed in claim 4 30 wherein the blister pack contains doses of medicament in each well tailored to the dosage required

by the patient.

Claim 26 (currently amended): The apparatus as claimed in claim 4 30 wherein the total number of doses included on a blister packet is for a twenty-eight day time period.

Claim 27 (cancelled)

Claim 28 (as filed)

Claim 29 (cancelled)

Claim 30 (currently amended): A disposable dispensing apparatus for storage and dispensing of a topically applied medicament to an animal by a dosing regimen to facilitate administration of uneven doses of a biologically active substance, said apparatus comprising;

a blister pack having a plurality of predetermined medicament-containing wells;

characterized in that the plurality of wells are grouped to contain medicaments, the wells being arranged and grouped for use of the medicament in each well;

the medicament is incorporated within a solution suitable for topical administration and the medicament contains at least one biologically-active substance; and,

further characterized in that at least ~~part~~ a portion of ~~the top of~~ at least one well is a transparent ~~material~~ and the solution colors seen through the well or wells are used as indicia.
